**SOUTHERN**  
**Medical College Hospital**  
CHITTAGONG, BANGLADESH  
EST: 2005

## FROM THE DESK OF EDITOR

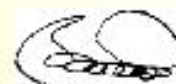

The Southern Medical College, one of the renowned private medical colleges of this area of Bangladesh is on the background of serenity of hills and blue sky. Established since 2005, it pours down its effort to make good doctors as well as good human being for the service of the country and mankind. We would like to offer this little introduction to the students, guardians and also to other citizen as an example of our sincere effort. Hopefully most questions about this institution would be met from this publication.

I would like to thank Principal, Professor (Dr.) Jhulan Das Sharma and Managing Director Mr. Zafrul Islam Chowdhury all teachers and students and supporting staffs for their encouragement and cooperation.

I welcome all new students who are going to be admitted here.

With the heartiest thanks & gratitude.

**Dr. Meherun Kabir**

Associate Professor & Head

Department of Dermatology & Venerology

Southern Medical College & Hospital

Chittagong

## WE MOURN

Late Dr. Nurul Alam Chowdhury was born on 31st December 1946 in a reputed family at Ratnapalong village of Ukhiya Upazilla at Cox's Bazar District. He was the 7th son of Late Hakim Ali Chowdhury & Late Hazera Khatun. From his early childhood he had shown his affection towards humanity by helping distressed of the community and it continued till his death. Dr. Nurul Alam Chowdhury was graduated MBBS degree from Chittagong Medical College in 1971. His career begins with joining as a Thana Health Administrator at his own Upazilla Ukhiya Health Complex. Later he joined as an Assistant Registrar at Ward-24, Unit-III under legendary Professor S.M.F. Karim in surgery Department of Chittagong Medical College.

In his personal life, he was married to Dr. Nazma Rowshan, a reputed gynecologist in the year 1971. They had two daughter named Dr. Tasin Chowdhury, Dr. Nahin Chowdhury and only son Oais Chowdhury. He was very caring, responsible father and a loving husband.

It was his dream to establish a Medical College & Hospital with the sole purpose to serve the under privileged people of the community.

His envisioned dream became a reality when renowned businessman of Chittagong Mr. Yasin Ali, Chairman, Habib Group, Mr. M. A. Salam, Chairman, Asia Group, Mr. Zafrul Islam Chowdhury, Chairman, Islam Group generously come forward to his call for this sensible project. On 23rd January 2002 the foundation stone of a 250 bedded Hospital was laid and named Southern Medical College and Hospital, Dr. Nurul Alam Chowdhury was designated as The Managing Director of the institution. This institute was his "Brain Child" for which he encountered numerous hurdles and he overcame them with a smiling face. It ranged from BMDC affiliation, affiliation by the University of Chittagong, approval of hospital license, increment of student's admission seats, foreign student's admission, to the recruitment of experienced efficient teachers and staffs and improvement of building infrastructure. He worked round the clock tediously searching for patients, arrangement of medical camps. He invited various National & International NGO's to arrange an array of health programs in Southern Medical College and Hospital campus on a regular basis.

On 22nd May of 2005 with the handful number of students, Dr. Nurul Alam Chowdhury successfully started the academic session. He mentored many new promising consultants of Chittagong and gave them moral support for their establishment. So he was nick named as "Lion Hearted" among the consultants of Chittagong.

His down to earth nature, his dedication for this institution, his social contribution to the community is reflected in the essence of Southern Medical College and Hospital. On the fateful day of 14th May 2017 at Max Hospital, Chittagong we lost him. His life was a blessing, his memory is a treasure, he was loved beyond words and will be missed beyond measure. May Almighty grant him Jannath and rest in eternal peace.

## PREFACE

Southern Medical College & Hospital had opened its doors in the year 2005 for aspiring scholarly national and foreign students endeavoring to undertake studies of medical sciences towards achieving of an MBBS degree. This college sprawling on 2.08 acres of lush, serene and naturally beautiful set up provides an ideal home for academic environment. Located in the metropolitan area of Chittagong, a major industrial and commercial hub of Bangladesh, Southern Medical College & Hospital had started with an initial intake of 50 students which have gradually evolved into a major alma mater of 476 students with its last intake of 13th batch out of which 273 female and 203 male members. So far 196 students have graduated as MBBS Doctors from this prestigious institution and quite a number of them have secured places in the merit lists in different professional examinations of the University of Chittagong. Most of these doctors are now

either serving at reputed medical organizations or pursuing studies at higher level of education in medical sciences, both at home and abroad. Our forte is a battery of highly qualified, professionally excellent members of teaching staff who are most sincere and effective in disseminating medical education to our aspiring students. We are highly proud of our faculty members who take care of all students with empathetic care and the effect of which is clearly reflected by the extraordinary performances of our students in different professional examinations.

Southern Medical College and Hospital, associated with Chittagong Medical University is fully accredited medical educational institution established under the permission by the Ministry of Health & Family Welfare (MOHFW), Government of Bangladesh and authorized for a yearly intake of 65 freshman students. Our academic norms and curricula have the recognition by the Bangladesh Medical and Dental Course (BM&DC) and is governed by the strict adherence to BM&DC guideline. Our MBBS degrees were affiliated to University of Chittagong till recently and from the session 2017-2018 the affiliating authority has been officially transferred to Chittagong Medical University.

Southern Medical College is attached to a six storied teaching Hospital building having 400 bed capacities with facilities open 24 hours catering to the medical needs of thousands of inhabitants in the vicinity of this region. This modern hospital building is equipped with large elevator/ lift and most modern medical equipment and facilities. The hospital is adequately staffed with highly qualified medical doctors, professionals and support staff congenial for efficient teaching and learning systems.

At Southern Medical College and Hospital, we strongly believe in balanced personal growth of our students. Therefore, besides academic pursuits our students are also inspired to be involved in extra-curricular activities like sports, cultural programs to commemorate various national, religious and cultural events and festivals. We also strongly foster a total secular attitude to all cast, creed, religion and ethnic denomination. Our students are provided need based housing facilities with modern hostel rooms distinctly available for female, male and foreign students.

The success of this prestigious institution is largely dependent on the seamless support of our entrepreneurs who are completely dedicated, very caring, proactive and relentlessly providing adequate support towards development of the College & Hospital through sustained input of finance, manpower, logistics and modern equipment for ensuring best possible teaching to the students.

At the conclusion, we would like to reiterate that we, at Southern Medical College and Hospital, only aspire to elevate the level of achievement and excellence to the next best level in all aspects of its performance.

**Prof. (Dr.) Jhulan Das Sharma**  
Principal

## MESSAGE FROM MANAGING DIRECTOR

Caring for people in distress and illness is an invaluable service attributable to humanity. Having the means and selfless ability to serve such needy mass from a national perspective should be considered as the most noble endeavour.

Keeping above need in view and for development of service oriented professional human resources to support healthcare paraphernalia of this region in Bangladesh, we were motivated to establish Southern Medical College and Hospital (SMCH), which had started its journey from the year 2005.

Being situated in a picturesque valley beneath the rolling hills of Bayzid, and tranquil environment, adorned with abundance of lush greenery of this area in Chittagong the port city, also known as queen of the east, our prestigious institution, Southern Medical College and Hospital, has remained an icon of professional healthcare establishment. Since its inception this innovative institution has been providing excellent academic opportunities to students and unique services to the community needing healthcare support through concerted efforts of highly qualified teachers assisted by competently skilled doctors and most proficient nursing as well as other paramedic staff.

Our world class teaching doctors and other professionals, with the help of local resources, not only cater to the need of this region, rather our caring efforts extend beyond. We at Southern Medical College & Hospital regularly organize to provide all kinds of dedicated logistical, technical and other support services to ROTAPLAST a philanthropic mission of medical professionals from San Francisco, USA. Every year, under the sponsorship of Rotary Club of Agrabad, this humane mission from the USA arrives here endeavoring to serve more than a hundred poor and needy people afflicted with complex physical deformity both congenital or acquired. As was mentioned above we at SMCH provide all kinds of end-to-end technical, non-technical and logistical support to make this a total success.

We at the Southern Medical have the vision to serve the community all through the future with an aim to produce humane doctors having academic competency blended with extra-academic activities in terms of sports, culture and social affairs. Branding quality in academic and service is the main philosophy of our institution.

Our doors are open, regardless to everyone from home and abroad who believe in our philosophy and would like to join this great institution for academic and associated professional pursuits. Our student body is composed of national and multi-national scholars from countries like India, Nepal and even from far flung northern American country like Canada.

We strongly believe that our congenial environment endowed with sanctity, peace and harmony will unleash their inner potentiality to reach out to distressed humanity through aspects of health care arena of this great nation. Long live Bangladesh and Southern Medical College & Hospital.

**Md. Zafrul Islam Chowdhury**  
Managing Director

**Mr. Md. Yasin Ali**  
Chairman

**Mr. Md. Abdus Salam**  
Director

**Salina Kauser Chowdhury**  
Director

**Oais Chowdhury**  
Director

## From THE BOARD OF DIRECTORS

Southern Medical College & Hospital (SMCH) was established in 2005 aiming to give nation a group of luminous medical graduates who can help the have-nots by providing highest possible quality of compassionate and cost-effective care and treatment, to each and every patient, producing high levels of patient satisfaction. The main object of the institute is to demonstrate high-standard of medical education, training of personnel and to conduct experiments and research in various disciplines of medical sciences. The aim of our college is not to make only doctors but to make sensible human being. The number of medical college is not enough to meet the requirement of people. To make our students dynamic we have already contacted some foreign medical colleges to get real time lessons from reputed medical college through teleconferencing, video conferencing, etc. Our faculties are not only teachers but mentors as well. Our institution has facilities to train Medical and Paramedical staff. We are committed to enhance the quality of life through improved health care, the preparation of those professionals who will serve the health needs of others and the discovery of knowledge that will benefit us all.

We cannot deny social responsibility but why did we chose health sector. The ratio of physicians to patients is inadequate in Bangladesh. Moreover, most of the people can not afford the cost of treatment. All around us, humans are suffering from painful bite of maladies of different kinds and we cannot remain heedless to their cries. To fight against the diseases and to cure and comfort men and women we set up this medical college that is equipped with all modern facilities which has a charitable air. Here poor people get the best treatment without any discrimination.

Our hospital is functioning quite well. We were committed to establish a specialized unit in Nephrology. So as a part of this kidney dialysis is going on to set up the facility of Kidney dialysis. It is notable that only two hospitals in Chittagong have this facility but the low income group people do not have the access to this service, but the door of Southern Medical College & Hospital is always open to those deprived people. Secondly, our Orthopedic Department as Chittagong is still lagging behind in this arena. But we never say our way was smooth and throne free but we overcame all the impediments.

We will keep our endeavor moving forward but we need people of all social strata, specially parents and students to stand beside us to make this noble effort successful. We believe we can make a better future by co-operating each other.
